THANKS TO YOUR SPONSORSHIP, GIRLS AT MUCHIN HIGH SCHOOL ARE BEING EQUIPPED WITH LIFE-LONG MONEY MANAGEMENT TOOLS.

200% INCREASE IN FINANCIAL LITERACY AMONG MUCHIN STUDENTS

Why is that increase so important? Low literacy rates dramatically impact women over their entire lifetimes. Not having the tools to navigate money in all its forms means that women settle for earning less, take less investment risk, accrue more debt, and pay off debts over a longer period of time.

Girls enrolled in RTSWS are more confident in financial matters and more likely to envision a career in finance.

To close the gender gap in wages, wealth accumulation, and in financial professions, we have to inspire girls to pursue the M in STEM, by exposing them to real life, positive money management role models. RTSWS sparks girls’ interest at a critical juncture when they are starting to plan for college, shaping their perceptions of what a person who works in finance looks like.

100% INDICATE THEY’RE LIKELY TO PURSUE A MAJOR/ MINOR IN FINANCE OR ECONOMICS

Muchin students indicated they are highly or moderately likely to pursue a major in finance, economics, or a related field.

100% THINK FAIRPOINTE CAPITAL VOLUNTEERS ARE AWESOME INSTRUCTORS!

Muchin students thought volunteers related course topics to real life experiences or current events extremely or moderately well.

THANK YOU FOR MAKING A DIFFERENCE IN YOUR COMMUNITY.
